

WHY WE NEED NOBLE MEN

In a world where influencers like Andrew Tate promote a version of masculinity rooted in dominance, status and materialism, boys need a **DIFFERENT** narrative - one that builds character, respect, and responsibility.

Misguided masculinity can lead to entitlement, lack of emotional intelligence and disrespectful relationships. Schools are struggling to help young men develop a balanced, responsible and respectful approach to life.

The 'Boys to Noble Men' program is designed to challenge toxic influences and guide male students toward a healthier, stronger and more noble version of manhood.

What Schools Are Saying:

“The transformation of those students we got in with Eric's program was phenomenal.”

- Cranbourne East Secondary College

Why It Works:

Students don't respond to lectures - they respond to real talk, engaging activities and relatable mentorship. Our program doesn't just tell them what to think - it equips them with the tools to think for themselves.

EVIDENCE-BASED SUCCESS

Backed by real-world results, the Boys to Noble Men Mentorship program has been successfully implemented in schools across Australia, with measurable improvements in student behavior, respect and leadership.
