"We had so much positive feedback from staff and students about Eric's sessions. Moreover, the issues we had been dealing with virtually stopped after these sessions as students began to realise the impact that their words and actions could have on others. We have noticed a cultural shift that has been very positive."

experience bullying on a weekly basis in Australian schools

Getting teased, struggling to find belonging and falling in with the wrong crowd has become the norm for many schools.

With social media at our fingertips it's easier than ever for students and teachers to be victimised by bullying.
