"Your phrase 'failure is only an event but never a person' is something I've been trying to share with my students, I'm glad they were able to hear it from another voice!"

"Your vulnerability meant a lot to our students, many of whom are going through the very things you went through, it was really relatable, thank you"

"We had so much positive feedback from staff and students about Eric's sessions. Moreover, the issues we had been dealing with virtually stopped after these sessions as students began to realise the impact that their words and actions could have on others. We have noticed a cultural shift that has been very positive."

"What a game changer you and your team are! Thank YOU for the gift you are to us as a community. Thank you for creating positive change."

OUR SOCIETY DESPERATELY NEEDS RESPECTABLE AND NOBLE MEN

Too many of our male students are slipping into the wrong crowd, making choices that jeopardise their futures and create challenges for teachers and fellow students in the classroom.

But it doesn't have to be this way. These young men need someone who's been in their shoes to guide them toward a better path. Eric Agyeman has walked that path. His story of resilience and transformation proves that change is possible.

Your students need to hear this - they need to know they can rise above their challenges too.

Boys To Noble Men Mentorship Program

An in-depth journey for maximum impact for up to 20 male students. Take full advantage of the boys to noble men pathway with intentional mentorship. Delivered within a school term across 6 double sessions.
